

Functional elegance in nursing care

SafeSense

Bed exit system

Safety

thanks to a sensor solution
instead of FDM and restraint

SafeSense = safety + freedom

day and night

wissner-bosserhoff, your reliable partner for the reduction of freedom-depriving measures (FDM): Improving resident safety and ensuring greater nursing quality at no compromise to residents' freedom. Benefit from our innovative bed exit solution and minimize the use of restraints and freedom-depriving measures.

Act in the best interest of your residents.
The time has come – for SafeSense.

thanks to intelligent bed exit sensor system:

Integrated or as a retrofit kit

- Accessory option for current WIBO nursing home beds
- Retrofit kit for electrical WIBO nursing home beds manufactured in 2002 or later

Automatic night light

- Night light is automatically activated when the resident leaves the bed
- Night light is automatically deactivated when the resident is back in the bed again

Nurse call system with flexible timing

- Freely adjustable from 0 seconds (immediate alarm) to 30 minutes
- Adaptation to resident's mobility

Greater safety – fewer FDM*

- Faster response time in the event of a fall
- Greater safety during night and weekend shifts
- Ideal in combination with sentida low nursing beds and SafeFree® side rails

* The concept behind what is known as the Werdenfelser Weg (Werdenfels care pathway), a procedural approach that falls under applicable guardianship and procedural laws, is to avoid the use of restraining and freedom-depriving measures such as abdominal belts, bed rails and overbed tables in institutions (Garmisch-Partenkirchen local court).
